

The Battalion Bulletin

A brief overview of our upcoming food drive.

Background

The Lancer Battalion has partnered with the Washington National Guard's "Guard Against Hunger" program for our annual battalion food drive. Our food drive supports cadets in our program who may not have enough food for thanksgiving. Our drive last year raised enough meals for 15 cadets and their families! This food drive is a great cause and it supports our battalion family. We ask all cadets to donate as much as they can!

What you can do:

We want as many cadets to participate as possible; here are a few guidelines to keep in mind:

- This food drive ends on 15 Nov. so the food items you turn in **MUST** be nonperishable.
- Food will be turned into your platoon leadership who will put it in your platoon's box in the conference room.
- **One** platoon in **each company** with the **heaviest** amount of food donated will receive a special mystery prize!
- If you believe that your family is in need of food items, please contact LTC Patty or 1SG Munoz.
